SULTANATE OF OMAN

The Sultanate of Oman and the World

50th Anniversary of the Sultanate of Oman's accession to the United Nations

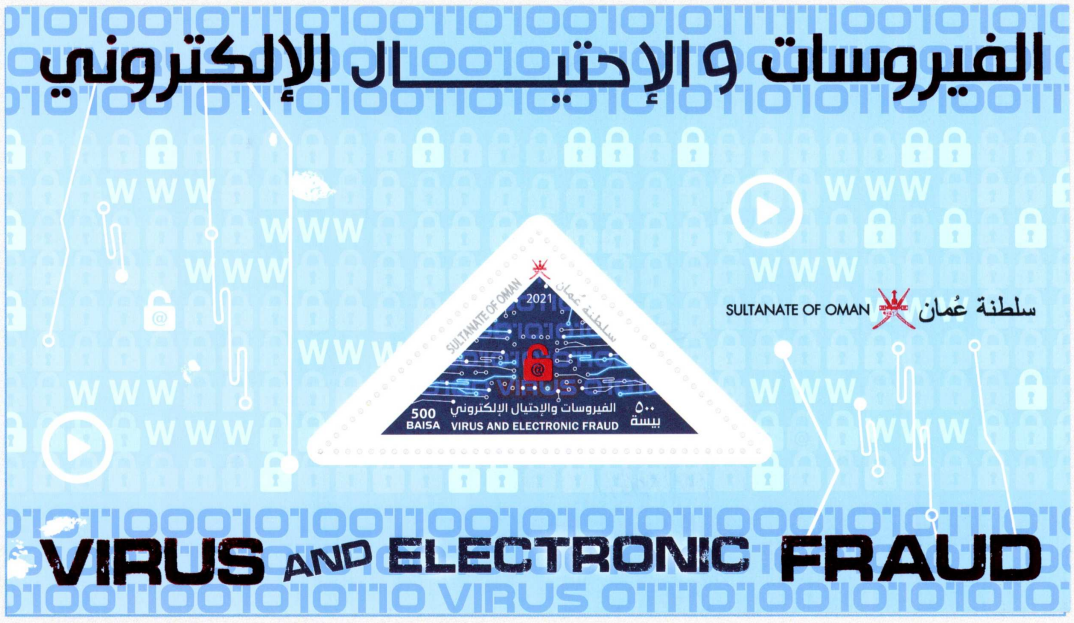

One of the most significant figures in modern Omani history, His Highness Sayyid Tarik bin Taimur bin Faisal Al Said was born in Turkey in 1920. He spent his early years in Istanbul, moving to Germany as a young man where he quickly added German to the three languages; arabic, english and turkish - he was already fluent in. Appointed Prime Minister in the first government formed by His Majesty Sultan Qaboos bin Said in 1970, His Highness Sayyid Tariq played a central role in securing Oman's admission to major regional and international intergovernmental organizations, amongst them the United Nations. As head of the Sultanate's first delegation to this revered body, Sayyid Tarik addressed the assembly saying: "I have come here with the hopes of my people invested in this organisation and the firm belief that only through strict adherence to its noble principles can peace and friendship be achieved among the nations of this world.

Oman Wild Life (Lizards)

Oman Post released a collection of commemorative postage stamps about wild life in Oman (lizards). Reptiles are one of the most common species in arid environment. They are model organisms for biodiversity, nature conservation and researches on ecological impacts of environmental changes. The study showed that the documentation of more than 101 species of reptiles in the Sultanate which represent 50% of the total reptiles available in the Arabian Peninsula including 21 species of snakes, 80 species of lizards. Moreover, 20 species of lizards were listed as nationally endemic species in the Sultanate of Oman. Al-Hajar Mountains in the north and Dhofar Mountains in the south are two regions known for particularly abundant biodiversity with considerable number of reptiles not found anywhere in the world. Both regions represent important sites for biodiversity and major habitat for a large group of reptiles and many mountainous valleys with fresh water make up aquatic habitats for multiple species of reptiles.

Coral Reef in Oman

Oman Post issued a collection of memorial postage stamps Coral Reef in Oman. Coral reefs are considered to be one of the most important resources and they represent an integrated marine ecosystem as the biodiversity in the coral reefs is not only limited to the colonies of coral reefs but also serve as a habitat for an assemblage of marine organisms. Moreover, coral reefs form a barrier that absorbs the elements coming from the open sea in a very efficient way. They attract divers, recreational fishermen and lovers of white sandy beaches and provide about %10 of the fish caught worldwide.

Omani Architecture in Tanzania

The East African region enjoyed a remarkable cultural position during the Omani presence, which influenced various aspects of the East African civilization, and took form in the various facets of life in the region. And the most prominent evidence of the Omani cultural influences in the East African Region is the Arab-Islamic architecture and ornament.

The Omani presence in the East African region was most noticeable through the many important architectural monuments it left; represented by the many facilities, buildings, and urban archeology that still exist to this day and are considered an important witness to the Omani presence in the region, such as palaces, castles, mosques, tombs and other physical evidence that transformed a city like Zanzibar from a small village full of mud houses into a city with beautiful gardens, stone buildings, multi-storey houses, and more modernized structures.

Nebula and milky way in oman's sky

At the heart of the Middle East and under clear skies unspoiled by light pollution, Oman stands as the ideal destination for astronomy enthusiasts looking to explore the wonders of our infinite universe, from mesmerising nebulae formed from hydrogen, helium and oxygen to galaxies of varying sizes, spanning from dwarf to huge.

Oman's unspotted skies open a window to the cosmos, offering an unparalleled opportunity to observe magnificent celestial bodies and nebulae, such as the Horsehead Nebula and the Flame Nebula located thousands of light years away. Additionally, our very own galaxy, the Milky Way, can be seen with awe-inspiring clarity.

For the ultimate stargazing experience, the Ibri Province's Jabal Al Sarah is the highest mountain plateau in the Al Dhahirah Governorate (2,500m above sea level) and provides an elevated vantage point that makes for an optimal setting to observe the arc of our galaxy. Its visitors can also experience its biodiversity and stunning natural beauty, with thriving flora and wild trees like ironbark and tapiscia and various shade trees.

On the clearest of nights, the Milky Way's arc can also be spotted rising above the ancient Tombs of Kubaikib, deep in Jabal Abyad of the Nakhal Province. These captivating, -4000year-old conical tombs, shaped like beehives, date back to the Bronze Age.

Joint Stamp Between the Sultanate of Oman and Kingdom of Saudi Arabia

Honoring the brotherly ties between the Sultanate of Oman and the Kingdom of Saudi Arabia, we are pleased to announce the launch of the joint stamp.

The stamp depicts the leaders of both countries with a palm tree in the center, signifying the nations' thriving partnership. The digital screen with red dots mark the capitals, Muscat and Riyadh, connecting the stamp to the future visions of both countries –Oman Vision 204, and the 2030 Vision of Saudi Arabia.

The stamp also illustrates the newly opened 725 km Rub AlKhali Highway (Empty Quarter Road), a direct route linking Oman to Saudi Arabia which emphasizes the importance in facilitating trade and cultural exchange. Overhead planes represent the strong bonds between the two countries and readiness to defend each other.

Joint Stamp Between Sultanate of Oman & Kingdom of Morocco

Commemorating the deep-rooted brotherly ties and the shared cultural heritage between the Sultanate of Oman and the Kingdom of Morocco. The design of the joint stamp captures the essence of both Oman and Morocco. The theme centers around the first place where the sun rises in the Arab region in Oman and the last place it sets in the Middle East in Morocco, symbolizing the breadth and unity of the Arab world.

In addition to featuring prominent cultural landmarks; including the majestic main gate of Sultan Qaboos Grand Mosque, the historic Sohar Ship, the serene sunrise at Ras Al Hadd, the formidable Sohar Fort, and the elegant Royal Opera House. Morocco's rich heritage is represented through its distinctive architectural style, the magnificent Al Hasan II Mosque, and iconic Moroccan sunsets.
