There is no future without peace, education and tolerance

"There is no way to peace. Peace is the way." - Mahatma Gandhi

"Education is the most powerful weapon you can use to change the world." - Nelson Mandela

We can fight for a better future only through peace, education, and tolerance, that is, acceptance and appreciation of the diversities in the world. Wars are started that destroy human lives, demolish cities like towers of cards. The disturbed nature seems to warn humanity to stop the wars. Earthquakes, droughts, floods, active volcanoes, and various other natural disasters bring people together and bring out the good in them. On the one side, wars, and destruction, and on the other side, natural disasters that bring people together.

As young people mature, the biggest roles in their lives play their families that raise them and teachers who educate them in tolerance about loving themselves, their families and friends, their religion, and people. In the same way, to respect others and respect them with all their differences. Young, educated, and tolerant people are the future that will lead us to peace. For a person to truly be a person not allowing the fall of humanity. Let's look around and learn from nature, because there is more tolerance in the animal and plant world than among humans. The coexistence of humans and the coexistence of plants and animals with all the laws of nature teaches us that by accepting others, our Earth can turn into a wonderful place to live, a place of peace and love.

Peace is the only way
EUROPA 2023 - Peace - the greatest value of humanity

The issue contains two stamps. The winning motive for the collaborative design by Linda Bos and Runa Egilsdottir (A Designers Collective) is a new sign representing peace based on the European, centuries-old visual motive of the knot, a symbol of endless unity, friendship and love. The second stamp is the work of Marin Musa, showing a white dove carrying an olive branch. It symbolizes peace as the greatest value of humanity. The sky in the body of the dove symbolizes that we are all one under the sky. The olive branch in its beak represents fulfilment and hope after dark times. The dove carries a message of harmony and indicates that wars and conflicts are never the solution.

75th anniversary of Mahatma Gandhi's death

Indian politician and leader Mohandas Karamchand Gandhi (1869 - 1948), known as Mahatma, meaning „great soul" in Sanskrit, fought for India's independence by non-violent means. Gandhi's teachings, messages of nonviolence and hunger strikes became an inspiration for nonviolent movements in other parts of the world. Mahatma Gandhi was shot dead by Hindu traditionalist Nathuram Godse on January 30, 1948 for believing he was offending Indian tradition and religion.

Peace is the only way
Myths and Flora 2023 - Goddess Athena and Olive

Despite the beautiful court on the island of Euboea, the sea god Poseidon was not satisfied. He wanted to rule the city whose protector was Athena, the wisest daughter of Zeus. He suggested that they face each other in a duel, but she suggested a peaceful competition. The winner will be the one who gives the most useful gift to the citizens of Athens. Poseidon hit the ground with his trident and a spring was created in that place. But the water was salty and undrinkable. Athena stuck her spear into the bare gorge and a plant sprouted from that place, which immediately turned green - an olive tree. The winner was decided by a divine council that gave priority to Athena and since then the olive has become a symbol of peace.

Christmas and New Year - holidays of peace, love and togetherness

Christmas and New Year 2021

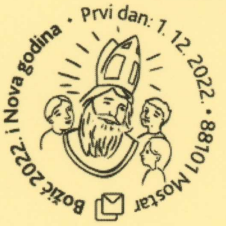

Christmas is a holiday by which Christians around the world celebrate the birth of the Son of God, Jesus Christ. His birth was foretold by the prophets in the Old Testament, those whom God chose to be messengers and interpreters of His words. Jesus' mother, the Blessed Virgin Mary, conceived by the Holy Spirit so that the Son of God would be born of a woman and become a man for the salvation of the whole world. By divine nature he is the Son of God, and by human nature the Son of Mary. He grew up in a family surrounded by the love of his mother Mary and his earthly father Joseph.

In the Gospel of Matthew, an event is described when, following the Star of Bethlehem, three wise men or kings from the East came to worship Jesus.

They are most commonly depicted and represented as men of various life stages (young, mature, and elderly) and different races or skin colours. It is not known where they came from or what their names were, but since the 8th century, the names Balthasar, Melchior, and Gaspar have become commonly associated with them. The gifts they brought to the child Jesus also have their symbolism: myrtle was given as a gift to him as a man, incense as a gift to him as God, and gold as a gift to him as a King.

350th anniversary of the deaths of Petar Zrinski and Fran Krsto Frankopan

Croatian nobles, military leaders and poets Ban Fran Krsto Frankopan and Duke Petar Zrinski were executed in Vienna Neustadt on 30 April 1671, after a failed conspiracy by the Croatian and Hungarian nobility, dissatisfied with the policy of the Vienna court. The Zrinski family has its origins in the Šubić family, one of the 12 old Croatian medieval tribes, and along with the Frankopan family it belongs to the most important and most famous Croatian noble families. Mladen I. and Mladen II. Šubić Bribirski were Bosnian bans, and Jelena Šubić was the mother of the Bosnian king Tvrtko I.

The International Day of Sports for Development and Peace is traditionally marked by the Croatian Post Mostar with the issue of postage stamps. In 2023, the theme is chess, one of the oldest and most widespread board games. The chess board is square in shape and divided into 64 squares that are alternately coloured light and dark. In the starting position there are 16 white and 16 black pieces (one king and one queen each, 2 rooks, bishops and knights and 8 pawns each).

International Day of Sport for Development and Peace 2021 - Swimming

Various swimming techniques have been used since ancient times; the skill of swimming was known to the ancient Assyrians and Egyptians. In Greece, swimming was part of general education, and the Romans considered it a military skill. The first written work on swimming, in Latin, dates from 1538. From then until the end of the 18th century, many works on swimming and its importance in physical education followed. Among other things, swimming strengthens the vascular system, increases lung capacity, has a positive effect on joints, develops fitness and endurance.
